

Installing Grasshopper Plugins

“ Language: English | [Deutsche Version](#)

Press `Win` + `R` to open the run dialogue. Type `powershell`, then press `OK`.

With PowerShell open, copy and paste the following command and run it:

```
[System.Net.ServicePointManager]::SecurityProtocol =  
[System.Net.ServicePointManager]::SecurityProtocol -bor 3072; iex ((New-Object  
System.Net.WebClient).DownloadString('https://docs.itau.uni-weimar.de/attachments/14'))
```

Afterwards, all required plugins should be installed.
